*Managers Reports*

ITEM J.1

POCHE RUNOFF DISINFECTION FACILITY  
MAY 17, 2010

UPDATE ON PROGRESS TO ACTIVATE THE SYSTEM

*(email from Tom Bonigut at the City of San Clemente)*

May 17, 2010

Hi Don:

I heard from the County that the Poche system passed the performance test conducted May 3-7. I don't have data yet, but apparently the system met all of the required benchmarks by a wide margin. The contractor had been working on the system for several weeks to adjust and optimize its treatment and cleaning cycles. The County is now working to accept the system and place it into service. I don't have specific dates yet, but will share with you once I get more details.

Tom Bonigut, P.E.  
Assistant City Engineer  
City of San Clemente - Public Works Dept.  
910 Calle Negocio, Suite 100  
San Clemente, CA 92673  
(949) 361-6187
