

Meeting #588

CAPISTRANO BAY DISTRICT
AGENDA REPORT
January 30, 2013

New Business

ITEM K.1

Proposed Revision to District Ordinance No. 06-202

A revision to current Ordinance No. 06-202 is being proposed to address the issue of oil and fluids leaking from parked vehicles within the community. The new ordinance number will change to reflect the year in which the revision has been approved, hence the new ordinance will be: Ordinance No. 13-202

The change is addressed under new Section 5, “VEHICLES IN DISREPAIR OR CAUSING DAMAGE TO THE ENVIRONMENT.”

District counsel is currently reviewing the revised language for accuracy and legality. The Board can approve this with a motion pending attorney approval.

***A draft of the proposed ordinance revision is provided on the following 3 pages.*
