ITEM F.3

New NO PARKING Signs for RR Parking Areas

As of Thursday, December 5th, the office has received approval from 27 homeowners to install the proposed new NO PARKING signs within their private RR parking areas.

There are a total of 100 homes with RR parking, 49 of whom have no sign at all. The remaining have older faded signs, some of which are blocked from view behind bushes, bent over or turned the wrong way, etc.

The holiday season has probably had a negative impact on the response that was expected so the plan for now is to send out another email notice, hold off until January to see if there are more interested homeowners, then make a sign order. It is expected that once signs are installed there will be others who see them and may decide to go ahead and have a sign as well.

ITEM F.4

OCTA Request to Remove/Relocate RR Safety Fence

Request for bids have been solicited to the following fence companies:

- Armor Fence Concepts
- Alpha Fence Company
- Alcorn Fence Co.
- Fenceworks Inc.
- Crown Fence Co.

As of Thursday, December 5th, three of the five have shown enough interest to come site walk the job and take measurements. However there have been no bids submitted yet.

OCTA was sent a memo explaining that we are not ignoring them and that bids for the fence project are being solicited.
