

Meeting #640

CAPISTRANO BAY DISTRICT
AGENDA REPORT
March 27, 2018

Old Business

ITEM 9

Undergrounding Utilities Progress Report

Board President Schwartz stated at the February meeting that he would, with the assistance of homeowner Dave Gutierrez, solicit at least two additional undergrounding consultants in one last effort to bring a solution to the Board and community for how to fit ground-level residential single phase transformers in the area of the community south of the large truck turnaround at 35537.

As of our Friday printing deadline, it is not clear whether Mr. Gutierrez has made enough progress, in order to report at Tuesday's board meeting.
