ITEM 9

Underground Utilities Progress Report

Homeowner Dave Gutierrez had volunteered to contact other undergrounding consultants and constructors to see if there might be a solution to the transformer issue with the south half of the community. Mr. Gutierrez gave a very useful presentation at the March board meeting that included a project flow chart to help organize the multitude of steps that go into such a project.

There is the possibility that Mr. Gutierrez will not be present at the April board meeting to update the Directors on his progress. If Dave can be here, there will be a discussion regarding his interaction with the various consultants that have been contacted. Otherwise this item will be postponed to the May meeting.
