

Meeting #652

CAPISTRANO BAY DISTRICT
AGENDA REPORT
April 30, 2019

Old Business

ITEM 9a

Undergrounding Utilities

As with last month, there is no written report for this item. The District's consultant, Dave Gutierrez, will be in attendance to verbally report on his progress with this project.

ITEM 9b

County Proposal for Temporary use of District Property

In attendance tonight will be Susan Brodeur, Senior Coastal Engineer for the Orange County Parks Department to discuss the County's plans for reinforcement of the public bike path that runs parallel to and in between the beach and our Northgate Maintenance Yard.

The public bike path has been partially undermined by continual shoreline erosion from high tide wave action. Shoring of the bike path requires a temporary closure and detour. The County is requesting temporary use of the District's maintenance yard property for the detour.
