ITEM 9c

Obstructed Storm Drain No. 12 at 35595

At the previous Board meeting, Director Irani had provided a referral to a local drilling company. This contractor was subsequently contacted, a discussion and sharing of information and photos took place and the contractor seemed to understand the problem and indicated he had just the solution. However, for the past two weeks this contractor has not provided a proposal nor has he been reachable by phone, txt or email.

Every effort will be made to make contact in order to have a proposal to present to the Board.
