### Monthly Security Report

With the recent change in the security services contract, from Securitas to Allied Universal Security (AUS), the report this month will be presented verbally by our Security Supervisor, Robert Stabenow. The computer for the new AUS system has been installed but not in time to generate a full report for the month.

### Fourth of July Safety

The holiday this year lands on a Saturday and security is expecting a busier than normal weekend. To provide for the safety needs of the community on this day the District will employ the following resources:

- five off-duty police officers (unarmed) to keep a watch on the beach side for illegal fireworks and any other out-of-control behavior that might require professional intervention
- all patrol officers will overlap by 1.5 hours with the next shift to provide extra coverage and to control parking on the roadway for emergency vehicle response
- we will have extra personnel in the guard shack to take calls and help deal with the public
- we will also have two additional traffic control officers at the entrance to direct the public away from our driveway and to prevent traffic gridlock

**FIREWORKS, WOOD FIRES AND LOOSE DOGS  
ARE PROHIBITED**
