

Meeting #664

CAPISTRANO BAY DISTRICT
AGENDA REPORT
July 28, 2020

Manager Reports

ITEM 7b

Debris Cleanup from High Tide Damage

The damage that resulted from the Fourth of July high tide event produced several tons of debris, enough to fill two large 40-yard construction dumpsters.

The District will continue to pick up storm debris that homeowners might place along their driveways and also the damage on the beach to sandbags, gabions and those water-filled plastic K-rail units.

As your armoring collapses, falls apart or disintegrates under the sun's rays, the District will do its best to assist in cleaning it up but can't be rebuilding your fortifications for you.
