

Meeting #665

CAPISTRANO BAY DISTRICT  
AGENDA REPORT  
*August 25, 2020*

---

*Old and New Business*

## **ITEM 9**

### Underground Utilities Progress Update

At the July Board meeting, the Directors agreed to place this effort on a temporary hold while the Board directs its resources and energy to addressing further efforts with Shoreline Protection.

## **ITEM 10**

### City/CCC Issue with Shoreline Protection

Since the meeting with the Coastal Commission was cancelled back in March due to COVID-19, the Board has yet to meet with CCC staff to discuss the matter of shoreline protection. As of last week the City reported to the District that CCC staff contacted them on Thursday, August 13th asking for a reschedule of the District meeting that they had originally requested back in January.

The Board immediately reciprocated and requested the City inform CCC staff to schedule a meeting at their earliest convenience. As of Friday, August 21<sup>st</sup>, there has been no reply from the Coastal Commission.
