Security Activity Report

ITEM F.3

Additional Gate Officer for Saturdays

The intent here is to have an additional officer at the entrance gate on Saturdays during the summer busy season to meet guests and visitors in the driveway with a packet of information, possibly a flyer reminding them about the speed limit, fires on the beach, noise after hours, etc.

One of the recommendations coming out of the work done by the QLC Committee was for this additional officer. Securitas has been instructed to begin looking for an officer who might fit the profile required for this new position, an individual with a cheerful demeanor who can perhaps sit in a director's chair under an umbrella, possibly in the driveway either before the gate arm or maybe just after the gate arm, either standing or seated, to pass on information.

The busy time at the gate on Saturdays begins around 1 pm through 5 or 6 pm when most of the rental clients check in. Reaching a majority of them as they enter should be helpful.

Further progress on this item will be reported at the Board meeting on Tuesday.
