Security

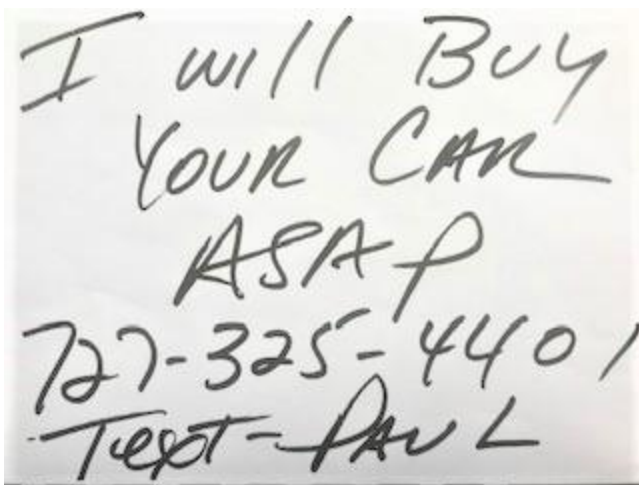

ITEM 6a

Monthly Security Report

Our Security Supervisor, Robert Stabenow, was involved in a car accident on the freeway while heading home Thursday afternoon and will not be in to work on Friday, when he typically puts together the monthly report for our board meetings.

There were no injuries to Robert but his car was smashed up a bit. He expects to be in on Monday (rental car) and will get the report put together then. Copies will available at the Board meeting Tuesday.

On another note – the note below was found on several cars and mailboxes around the community last weekend. We texted the number on the note and informed them to stop the soliciting as it is prohibited. A reply came back with a very juvenile comment and we never did figure out who it was. No last name and the phone # does not come up in our files. We haven't seen any additional solicitation brochures, etc., nor have we seen anyone going door to door to buy cars. It appears the Manager's text to this person ended their efforts.
