

Meeting #686

CAPISTRANO BAY DISTRICT
AGENDA REPORT
June 28, 2022

Security

ITEM 6d

15 MPH Signage

The District is soon to schedule a restriping of the road to include the white skip-line for parking control, solid white double lines for the bike/pedestrian lane, stop bars for the stop signs, and the 15 MPH stencils on the pavement in several locations (but without the MPH letters – just the number 15 everywhere).

Also, the use of moveable 15 MPH signs in traffic green (a bright fluorescent yellow/green color) will be implemented in random locations to continually remind drivers of the posted speed limit.

For about a month now Security has been handing out the brightly-colored 15 MPH handouts at the gate to all service people and guests and will continue this practice until the ocean washes away the guard shack
