

September 25, 2023

In reply to the Mahgerefteh Family opposition to the parcel tax people should know that our communities advisory committee has engaged many consultants and engineers in their goal of protecting our shoreline and homes (See below). This project is certainly not isolated strictly to the services by our legal counsel as stated and is much broader in scope than a possible lawsuit.

- Leslea Meyerhoff – Consultant **Summit Environmental Group Inc.**
- Susan McCabe - Consultant **McCabe & Company**
- Dave Skelly – Coastal Engineer-Seawall Design **GeoSoils Inc.**
- Reg Browne – Coastal Engineer-Sea Level Rise **Reg Browne - Pacific Engineering Group**
- April Winecki – Planning and Entitlement Consultant **Winecki Consulting**
- Stan Lamport – legal counsel **Cox Castle Nicholson**
- Steve Kaufmann – legal counsel **Nossaman LLP**
- Bob Page - Consultant/Elections **OC Registrar of Voters**
- Rigo Garcia - Consultant/Elections **City of Whittier**

I realize that no one wants to pay more in taxes or fee's, yet it is imperative that this parcel tax pass in order to protect the present and future values of each home and lot on Beach Road. No one person can possibly protect our shoreline or the infrastructure in our community. Vote yes!

Sincerely,

 9/25/2023

Christian Miller
