Advisory Committee

ITEM 8a

Shoreline Protection Advisory Committee Report

The Committee continues to make progress with its efforts at coordinating the process for obtaining Coastal Development Permits for shoreline protection. Paving the way and ‘inventing the wheel’, so to speak, is a challenging process but is made more efficient with our consultant team, which, in case you have forgotten the players, are as follows:

- Stan Lamport Coastal Law Counsel
- Steve Kaufmann Coastal Law Counsel
- Leslea Meyerhoff Consultant for regional shoreline activity, liaison w/City of San Clemente
- Dave Skelly Coastal Engineer
- Guida Surveying Survey Engineer for Mean High Tide Line
- Toal Engineering Survey Engineer for topographic lot plans
- Peter & Assoc. Structural & Civil Engineer
- April Winecki Consultant for Entitlement/Coastal Development Permit processing
- John Ciampa Planning liaison with City of Dana Point
- Keith Greer Representative with SANDAG
- Susan McCabe on the sidelines as additional consultant on CCC matters

Additionally, the Advisory Committee is made up of the following volunteer homeowners:

- Brad Jenkins (also on the Board of Directors)
- Bill Nassour
- Bill Fox
- Jack Tarr
- Kristin Stark
- Rick Watson
- Sean Moran
- Karen Morris
- Don Russell, District Manager (not a homeowner)

The Committee is getting closer to submitting the first CDP package to the City.
