

CAPISTRANO BAY DISTRICT  
AGENDA REPORT  
March 26, 2024

---

*Regional Beach Sand Discussion*

## ITEM 6b

### Report from Advisory Committee Consultant Leslea Meyerhoff

Leslea Meyerhoff was hired by the District's Advisory Committee in 2022 at the outset of the program to liaison with the District and the efforts of other coastal communities to keep us updated on progress and to provide notifications when meetings by other agencies and municipalities were announcing plans for sand replenishment-related projects so the Committee could keep abreast of regional progress.

Ms. Meyerhoff has been asked to attend this Board meeting to report on how sand replenishment efforts are moving along in other coastal areas, with a report on San Clemente's progress, also the innovations being promoted by the City of Oceanside and the regional partnership with SANDAG (the San Diego Association of Governments).

There will be an opportunity for questions after Leslea's report.
