### Report from Advisory Committee

The consulting team is almost complete with all preparations for submitting the CDP application to the City. In two weeks, there will be a scheduled pre-submittal meeting with City staff to present the permit application in detail to Counsel, the City Manager and the Planning Staff.

The purpose with this meeting will be to introduce the District's consultants and prepare staff for receiving the Coastal Development Permit application packet and walk them through all the documents and studies and provide for preliminary Q&A.

The Committee expects for the CDP application to be complete and ready for submittal to the City by the end of May.
