7. SHORELINE COMMITTEE

a. Miller CDP application to the City

The second round of plan check corrections has been completed and submitted back to the City on May 14th. The City has 30 days to complete their review and reply to the District. A third round of corrections will require additional oversight by the Shoreline Committee.

b. South Orange County Beach Coalition

The Committee is working closely with the Coalition staff to advance our position that the shoreline erosion issue is directly related to lack of sediment coming out of the San Juan Creek. Being this early to the table gives the Committee a better chance to guide the direction of the Coalition.

c. Response to Coastal Commission Letter of April 23rd

Committee Counsel Stan Lamport crafted a reply to the CCC letter of April 23rd, which was sent to the CCC on May 23rd. The main point in the letter was to point out that the alleged violations are within the City jurisdiction where the CCC has no enforcement power. Anticipating that the CCC will then try to go after the City to cede their jurisdiction, counsel has met and advised the City to be

expecting a call from the Coastal Commission, with advice on how to respond to them.

8. SECURITY REPORT

a. Security Monthly Report for April 2025

Since getting the patrol vehicle radar equipment repaired, Security has been running random speed checks and including a monthly summary report. To the question of how Security is dealing with speeders, PC Stabenow explained that after the second warning with construction workers, delivery services, etc., the violator is banned for a week from entering the community and upon return must show their DL, registration and proof of auto insurance or get denied access.

On the matter of the lack of accountability with the electronic patrol checkpoints as requested by Director Lurner at a previous meeting, PC Stabenow reported that we have a meeting with the Heliaus agent to learn more about how the system works, establish additional e-check points and to customize a monthly report that shows a record of when the e-check points are activated by the patrol officers during their shifts.

The discussion then turned to nails and screws in the roadway and the request was made as follows:

- provide a regular notice to all work sites to sweep up the road way at the end of the work day
- check around to other private communities for how they deal with nails and screws

9. FINANCE

a. Monthly Financial Report through April 2025

The financial report was received and filed. Manager Russell added that staff is currently working on the budget for the new fiscal year starting July 1. While reviewing Committee expenses, Director Seidensticker revisited the concern for more oversight with expenses on the part of the Committee's counsel, Stan Lamport. After some discussion, Director Misher offered the following action:

MOTION was made by Director Misher, seconded by Director Seidensticker and voted 3-1-1 (Lurner absent) to establish stronger oversight on Shoreline Committee legal expenses.

b. Offer from California Bank of Commerce (CBC)

Bank representative Jerry Legg was not present to engage in the discussion so this item has to be moved to the next Board meeting on Tuesday, July 1st. CBC is offering 4.28% on Money Market accounts but there are some downsides that may make this a less attractive offer and need to be considered.

10. OLD BUSINESS

a. Roadway Sealcoating and Repairs

Manager Russell reported that the speed bumps have been replaced and coming this month the District will be sealcoating and striping the entire roadway. Owners will be given at least 10 days notice as there will be some roadway closures and traffic interruptions.

11. NEW BUSINESS

There was no new business except under agenda item 9b above.

12. QUALITY OF LIFE - CBRA DISCUSSION ITEMS – SHORT TERM RENTALS

Admin. Assistant Karen Morris explained that the City is using a new outside vendor for tracking rentals, permit compliance and TOT payments. Morris also pointed out that the District has an ordinance prohibiting animals in rentals and will begin a more proactive enforcement by turning renters away at the gate when they arrive with dogs – this will come after notification to rental managers and owners.
