

*Meeting #723*

CAPISTRANO BAY DISTRICT  
AGENDA REPORT  
APRIL MEETING  
*January 27, 2025*

---

*Shoreline Committee*

## **ITEM 7a**

Miller CDP Application Status

The Planning Commission hearing date for the Miller CDP application has once again been continued to a new date of Monday, February 9<sup>th</sup> at 6:00 PM.

The reason for this particular continuance is due to a time conflict with one of the Commissioners. For the best possible outcome, we want all five members present, hence the request for a continuance.

With the application, staff report and resolution all in order, there should be no further delays with the Miller application.

## **ITEM 7b**

South OC Beach Coalition Meetings

There are three District representatives now attending the monthly Coalition meetings to follow and advocate for all things of a sand replenishment nature in Dana Point and San Clemente.

The Committee agreed to rotate members attending the meetings so everyone gets a chance to sit in and listen to the business. At the last meeting Rick Watson, John Ciampa, and Don Russell were in attendance.

John Ciampa was recently brought in by the Committee and will be a key asset for the District since he was recently senior planner for the City and has since left the city to develop his own planning business. Being intimately involved with the Miller CDP application from the very beginning, he will be extremely useful to the District's efforts as Miller moves from city approval to the desk of the Coastal Commission. John can also be very useful in a consulting capacity if/when homeowners find they need to come to the city for shoreline protection/armoring permits, as was discussed in the previous agenda item.

The Coalition is currently wrapping up the final details of the Orange County Coastal Regional Sediment Management Plan – which identifies why, when and where sand is needed. We will then be exploring available sand sources and funding.
